> **Refugee Community Development Fund**

This national programme ends 31 December 2004

The Refugee Community Development Fund makes grants available to organisations that work in the UK with refugees and refugee communities, including those that provide services to asylum seekers. Applications are particularly welcome from smaller grassroots organisations, emerging groups and those for whom refugees are a new target group. Projects must be for the benefit of those with full refugee status (under the 1951 UN Convention), or those who have been given Protection on Humanitarian Grounds or Discretionary Leave in the UK.

Total Fund Value is £1,000,000. There is no upper limit on the amount of funding which organisations can bid for, but funding will be distributed in a way which ensures that as many groups as possible are able to benefit. Given the total amount of funding available and the likely number of requests, the maximum grant value of £5000 is given as a rough ceiling to guide applicants.

Generally, three types of activity will be funded, though this is not intended to be an exhaustive list:

Start up costs - Funds may be provided to newly emerging groups to meet the cost of furniture, IT and other office equipment, stationery and reimbursement of volunteers expenses. Funds could also be used as a contribution towards the cost of renting premises for a short period, but not on a long-term basis. All applications must be supported by an independent referee and include the required enclosures.

> **Online fundraising service tops £1 million**

Over £1 million has been donated to charities online through CAF's Tailored Efundraising service. Launched in August 2002, Efundraising enables charities of all sizes to accept secure, tax-effective credit/debit card and Direct Debit donations from their own website, without the need for a specialised trading and banking service.

Currently used by over 350 non-profit organisations, individual donations through the service have ranged from £5 to £10,000 and have been made from 100 countries including Australia, Belgium, the US, Canada and Japan.

Efundraising links a charity's website to secure donation pages which can be tailored to fit in with the look and feel of its own site. Working alongside World Pay, the leading e-commerce solutions company, CAF (Charities Aid Foundation) undertakes all the administration on behalf of the charity, from designing the donation pages, to processing gifts and reclaiming tax from the Inland Revenue. On average 76% of donations through Efundraising are made via Gift Aid compared to a sector average of 28%.

As well as UK sterling, charities can appeal for gifts in US dollars or Euros with further currencies added to their donation pages on request.

Charities are able to view statements of donations online, while CAF provides donor records and hard copy reports to further support their fundraising activities. In addition, charities are able to view donations being made through their websites in real time and a unique online tracking facility enables them to identify from which sites or emails their donations have originated. For more information about Efundraising call 01732 520 316 or visit www.efundraising.org
