ESF Update March 2004 ●

The Objective 2 ESF bidding rounds is about to "take off" again for both Priority 2 and Priority 3, on the 5 April 2004

Deadline for full ESF Applications 17 May 2004.

Objective 2 Programme 2000 - 2006

LVSTC will be facilitating a series of workshops across London, assisting community and voluntary sector organisations to appreciate the opportunities within the structural Funds and to develop quality project proposals to combat both social and economic exclusion.

Priority 2 Business Development and Competitiveness Measure 2.7 Developing A Competitive Workforce (ESF)

Will support small businesses to train and develop their employees. Under this Measure funding will be provided to projects that provide high level training at NVQ level 3 or above; Government Office for London are currently seeking agreement with the European Commission to lower this to NVQ level 2 prior to the launch in April 2004.

LVSTC are still awaiting further clarification on this point, once a formal decision has been made they will endeavour to update you.

Projects supporting women, disabled people and black ethnic minority communities within the Objective 2 wards are encouraged.

Priority 3 Infrastructure Premises and Environment Measure 3.4 Ensuring Local Benefit (ESF)

Will support initiatives that ensure that residents of the Objective 2 area directly benefit from the job opportunities created under Measures 2.1 and 3.2 and **other local construction projects**.

Indicative activities could include the following:

- Local labour market schemes
- Job brokerage initiatives
- Paid/ voluntary work experience and wage subsidy schemes

LVSTC are circulating these details now to give you sufficient notice to book a workshop place

Funding update ●

> Community Fund - London New Priority

Over the past two years, Britain has seen some of the worst instances of public disorder in the last twenty years. Although the disorder didn't occur in London, it doesn't mean that it is immune to similar disturbances. London is culturally diverse. It has pockets of severe deprivation and there is a huge disparity between rich and poor, making it vulnerable to tension and the issues already identified as contributing to public disorder.

With this in mind, and as a result of research into London's issues, this priority is focussing on addressing the issue of community cohesion, especially the aspect of social disorder.

The main aim is to fund projects that increase understanding across all communities, particularly those that feel disenfranchised. For example, projects that: Challenge traditional boundaries of race and ethnicity; Unite organisations from both the black and minority ethnic and mainstream voluntary sector enabling them to learn from each other.

Tackling the breakdown between communities and bringing people from different communities together will help build knowledge, trust and acceptance for others regardless of race, age, economic background or religion (They do not fund projects that promote religious belief). This will make communities stronger and therefore less likely to become fragmented and susceptible to social disorder.

They will look to see where in London your project is based, whether it could be, or has been, used as a good model in other similar areas and if your organisation has identified social disorder, such as a rise in street crime or vandalism, as a symptom of the breakdown between communities.

This is an exciting priority and one that has great potential to help increase the quality of life of people living in areas where a lack of community cohesion is a real or imminent threat to social order.

> Community Fund's Strategic Grants - New focus

The Community Fund's Strategic Grants programme is changing its focus to concentrate on influencing policy and practice.

Applicants for the Strategic Grants programme, which covers organisations applying for lottery money in three or more England regions, the whole of England or two or more countries within the UK, will be encouraged to develop projects that will tackle the causes of poverty and disadvantage by changing people's attitudes, the way services are delivered or by changing or influencing local, regional or national policy.

The Community Fund has always given grants to help tackle poverty and disadvantage but they now feel that to have a wider impact, their national grants need to be looking at the causes of disadvantage rather than just the symptoms. They believe that the best way to do this is to focus their money on projects that will influence policy and practice because by their very nature they will reach far more people and provide a valuable and positive framework for our regional programmes."

After 28 May 2004 all grants will be assessed using the new focus and this system will be in operation until March 2005. Grants that do not use the new approach can still be funded, but preference will be given to those that do.

The merger between the Community Fund and the New Opportunities Fund means that the programme is likely to change in April 2005.

Applications will also need to consider one or more of the Community Fund's six priority groups of beneficiaries and other disadvantaged people not covered by these groups.

A booklet has been published giving further details of the new focus for the programme. Copies can be obtained from Website: www.c-f.org.uk/about-us/our-grants-programmes/strategic-grants

Anyone interested in applying to the programme should contact the Strategic Grants office Tel: 0115 934 2960

> Awards for All

You may be aware that Awards for All policy can and does change without specifically informing applicants. However there are currently some major policy changes they wanted to let you know about.: Running Costs, Annual Events and Ongoing Activities. be extended or developed. Please be aware that you may have received funding several times in the past for the same events and activities. From now on you will no longer be successful unless you can argue how such repeated activity will be extended or developed.

Schools - Major Policy Changes

They will no longer fund projects or activities that take place during school hours (not including lunch time). Any schools project (whether the applicant organisation is a school or not) can only be funded if it takes place outside the school day as defined.

Applications from schools will be expected to demonstrate an external focus, requiring them to work in partnership with other community-based organisations, for example a local sports club, local history group or artists' co-operative.

Applications which do not demonstrate a satisfactory external focus will be turned down.

Independent fee paying (private) schools are no longer eligible to apply to Awards for All.

The Senior Contact for any school application should be the Head or Deputy Head Teacher of the school.

All applications will be considered on their merits, according to our published aims, policies and criteria, in competition with others processed at the same time. We cannot guarantee funding in any circumstances. From 1 April 2004, it will take 8 weeks to hear the decision on a complete application. Website: www.awardsforall.org.uk

> Healthy Lifestyle Grants

The Lifestyle Grants programme was launched in 2001 and has an objective to support lifestyle interventions in communities to prevent or reduce the risk factors of heart disease. We award grants from £1,000 to £10,000 that are one off, or for the first year. Part funding is also acceptable.

To apply, interested parties are required to send by email an outline proposal that meets the guidelines provided with the application form. There is no closing date although grants are awarded twice a year in May and November.

The Charity's Lay panel prioritises all applications prior to being reviewed by the Lifestyle Review Panel. The Lifestyle Review Panel is comprised of trustees of the Charity with a special interest in lifestyle and advisors who work in the health promotion. Recommendations are then made to the Board of Trustees for the final decisions as regards the awarding of Lifestyle grants.

Who Can Apply? Community Organisations, Inter-sectoral partnerships, Community Researchers, Which Grant Applications are considered? Lifestyle interventions - physical activity, healthy eating and smoking cessation programmes that will help to prevent or reduce the risk factors of heart disease.

Grant Activities Not Supported Initial grants may not be used primarily for salaries or capital costs. For further information please call their Lifestyle Officer on 0113 2976206 Email: lifestyle@heartresearch.org.uk

> Online fundraising service tops £1 million

Over £1 million has been donated to charities online through CAF's Tailored Efundraising service.

Launched in August 2002, Efundraising enables charities of all sizes to accept secure, tax-effective credit/debit card and Direct Debit donations from their own website, without the need for a specialised trading and banking service.

Currently used by over 350 non-profit organisations, individual donations through the service have ranged from £5 to £10,000 and have been made from 100 countries including Australia, Belgium, the US, Canada and Japan.

Efundraising links a charity's website to secure donation pages which can be tailored to fit in with the look and feel of its own site. Working alongside World Pay, the leading e-commerce solutions company, CAF (Charities Aid Foundation) undertakes all the administration on behalf of the charity, from designing the donation pages, to processing gifts and reclaiming tax from the Inland Revenue. On average 76% of donations through Efundraising are made via Gift Aid compared to a sector average of 28%.

As well as UK sterling, charities can appeal for gifts in US dollars or Euros with further currencies added to their donation pages on request.

Charities are able to view statements of donations online, while CAF provides donor records and hard copy reports to further support their fundraising activities. In addition, charities are able to view donations being made through their websites in real time and a unique online tracking facility enables them to identify from which sites or emails their donations have originated.

For more information about Efundraising call 01732 520 316 or visit www.efundraising.org

> Paul Hamlyn Foundation - Right to Read 2003-2006

The Foundation is interested in supporting imaginative projects aimed at improving long term access to books for 'looked after' children and young people and at providing them and their carers with opportunities to read for pleasure.

Preference will be given to collaborative projects involving, for example, libraries, social services and the local education authority, and which can continue after PHF funding comes to an end.

National, regional, or local organisations or consortia working in the UK can apply.

Applicants must be not-for-profit organisations and be able to demonstrate their commitment to the project by covering at least 25% of the total project costs. Some of this support can be in kind. Priority will be given to partnership projects.

Trustees will expect to see provision for monitoring and evaluating each project.

Applications will be considered by Trustees twice a year. Closing dates are **1 April** and **1 October 2004**. However if you are interested in applying they suggest that you make an exploratory telephone call or write a letter describing your work before submitting a formal application.

For further information about Right to Read please contact The Paul Hamlyn Foundation, 18 Queen Anne's Gate, London SW1H 9AA Tel: 020 7227 3500 Fax: 020 7222 0581 E-mail: information@phf.org.uk Website: www.phf.org.uk

> Home Office Refugee Integration Challenge Fund

Next application deadline is 5pm on 23 April 2004. The scheme ends 31 March 2006

The Home Office Refugee Integration Challenge Fund was established in November 2001 to support the implementation of the Home Office's Refugee Integration Strategy. It is designed to promote innovative projects that address specific social needs amongst refugee communities. Projects must be for the benefit of those with full refugee status (under the 1951 UN Convention), or those who have been given Protection on Humanitarian Grounds or Discretionary Leave in the United Kingdom.

Total fund value is £3,000,000 with minimum: £20,000 and maximum: £50,000. There is no maximum limit on the amount of funding that may be awarded, but awards will normally fall within the range shown above.

The Home Office has commissioned a number of research projects into refugee integration. The most recent of these, the Indicators of Integration Project, has produced a framework that is designed to assist projects and policy makers to identify actions that may support integration. The Home Office will be assessing applications that seek to address the following areas: Means and Markers - indicating the engagement of refugees in the life of their communities and the extent of their integration; Social Connection - supporting the development of social relationships and networks within ethnic groups and between these groups, the wider community and the state

Cultural Competence - improving the skills and knowledge that will allow refugees to be active, engaged and secure within their new communities; Basis - supporting refugees to engage fully and equally in UK society, including the development of innovative ways to provide advice on legal rights and the process of considering citizenship.

Funding will be concentrated upon activities that directly benefit refugees in the above areas. Some projects which seek to develop the capacity of, for example, refugee community organisations to develop the above services may be considered, although such capacity building will need to identify the anticipated outcome of the intervention.

For the current year the Challenge Fund has a capped budget and in the past funding has been highly competitive, so applicants should note that not all applications will be successful. The Home Office is committed to assessing all projects and ensuring that there is a spread of projects across the UK, covering a range of service areas (e.g. housing, employment etc.).

Projects that have received funding in earlier rounds of the Challenge Fund may apply for continuation of funding in the new round. All projects should clearly mark the box on the application form to indicate that they are seeking funding to continue an existing project. Please note that monitoring and evaluation data may be used in assessing applications.

Funding is awarded on an annual basis for a maximum period of 12 months. Organisations may apply for projects that will last longer by indicating the type of work that would be undertaken over a longer period and the associated costs, but the Home Office cannot commit to renewing funding after 12 months and applications will need to be resubmitted (along with all relevant project monitoring data) in order for an additional grant to be awarded.

The Challenge Fund is unable to: fund integration projects seeking to work with people who have not been granted refugee status, Protection on Humanitarian Grounds or Discretionary Leave; provide replacement funding for other statutory or mainstream funding programmes, such as legal advice on immigration or asylum that is funded through the Legal Services Commission; provide replacement funding where funding from another source has expired; provide a permanent funding stream for any project or set of activities, as it is designed to pump-prime services and support piloting of innovative demonstration projects; fund applications made by commercial organisations or private companies, unless they are acting in partnership with a voluntary/community organisation or public body.

See website: www.ind.homeoffice.gov.uk/default.asp?pageid=90 for full details of criteria and how to apply.

Workshops to assist in the development of projects proposals will take place in March and April 2004. To find out more and register for the pre-application workshops please contact Michael Bell Associates on Tel: 020 7407 4010, Fax: 020 7407 4020 or by e-mail: info@mba4consultancy.co.uk If you have a query about the Challenge Fund, or wish to submit an application please email: refugeeintegrationchallengefund@homeoffice.gsi.gov.uk Please note, Applications must be submitted by email. Postal applications cannot be accepted
